ABOUT

Hi, I'm a 16-year-old 11th grade student from Tbilisi, Georgia. Student at @[BitCamp](#). I'm interested in full-stack web development, more specifically the back-end. I'm motivated and inclined to learn. Currently I'm deeply immersed in the learning process. I have a high sense of responsibility and my most valuable skill is hard working.

EXPERIENCE

I have successfully completed the first and second stages of [BitCamp](#), currently I'm on the third stage and following the curriculum. In the process of learning I did a number of interesting projects, of which my favorites are JavaScript Calculator, Sudoku Solver and Exercise Tracker because I spent a quite lot of time doing them and gained quite a lot of knowledge and experience.

EDUCATION

I'm 11th grade student of Tbilisi Public School. I'm mostly self-taught person and at the same time I'm also student at @[BitCamp](#).
